

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

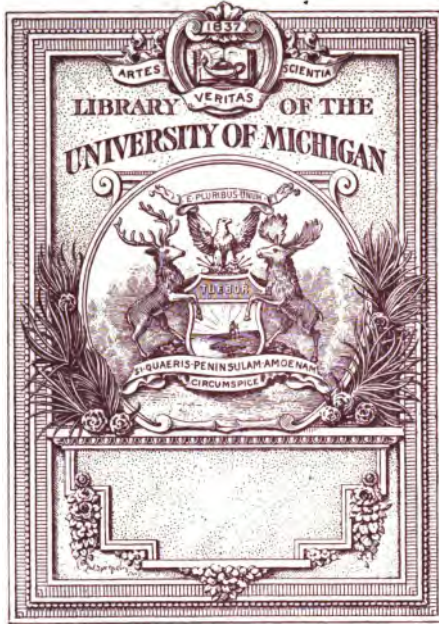

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

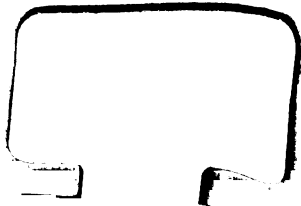

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## POSTAL REGULATIONS.

---

### INLAND POST.

(i.e., wholly within the limits of Canada.)

FOR PURPOSES OF INLAND POST ALL MAIL MATTER IS DIVIDED INTO *Five classes* AS DESCRIBED HEREUNDER.

#### FIRST CLASS MATTER

Includes Letters, Post Cards, Legal and Commercial Papers wholly or partly written, and all matter of the nature of a letter or written correspondence.

#### LETTERS.

- Rates.** 1. **POSTAGE RATES.**—There are three rates of postage on letters and matter subject to letter postage, viz. :
- (1) The general rate on letters passing between one place and another in Canada, which is 3 cents per ounce or fraction thereof.
  - (2) The rate upon local or drop letters, posted for local delivery in cities where there is a free delivery by Letter Carrier. This rate is 2 cents per ounce or fraction thereof.
  - (3) The rate on local or drop letters posted for local delivery in places where free delivery by Letter Carrier has not been established. The rate in this case is one cent per ounce or fraction thereof.
- Matter liable to letter postage.** 2. **LIABILITY TO LETTER POSTAGE.**—Every communication, notice, or other document, written or partly written, is to be considered as a letter, unless specially excepted from the application of letter postage. The *exceptions* referred to are noted under the head of Third and Fourth Class matter.
- Open letters not exempt.** 3. **OPEN LETTERS.**—The sending of a letter or any communication or document subject to letter postage in an open cover does not in any way diminish its liability to the letter rate postage.
- Prepayment by postage stamps.** 4. **PREPAYMENT OF POSTAGE.**—All postage due on letters posted should be prepaid by postage stamps duly affixed to the letter before posting; and the despatching Postmaster should carefully and effectually cancel such stamps before the letters leave his office.
- Mutilated and soiled stamps.** No mutilated stamp can be accepted in payment of postage, nor should any soiled stamp be used, as it is impossible in many cases for the Post Office to distinguish a merely soiled stamp from one previously used and cancelled.
- Violations of the law.** 5. **VIOLATIONS OF THE LAW.**—To attempt to use any stamp that has previously served for payment of postage is by law made an offence punishable by fine, and to remove marks of cancellation for the purpose of using such a stamp a second time is by law a misdemeanour punishable by fine or imprisonment or both.

6. **INSUFFICIENTLY PREPAID LETTERS.**—The law permits the forwarding of letters on which a portion only of the proper postage has been prepaid, but such letters are taxed with double the amount of the deficiency to be collected on delivery. Thus, if a letter liable to 3 cents postage be posted prepaid 1 cent only, it will be stamped "Insufficiently prepaid," and forwarded to its address, subject to collection of 4 cents on delivery. The amount to be collected, not merely the amount of the deficiency, should be marked on the cover of an insufficiently paid letter. Registered letters are not to be accepted unless fully prepaid, and postmasters accepting them will be held responsible for the short postage. (*See* paragraph 11).

Insufficient prepayment.

7. **WHOLLY UNPAID LETTERS.**—Wholly unpaid letters are not to be forwarded to destination at all, but are to be sent by *first mail* to the Dead Letter Office, for return to the writers. (Postmasters will please to remember that this relates to *inland* not to foreign post, the regulations for which, given further on, differ on this point.)

Unpaid letters

8. **LETTERS ADDRESSED TO INITIALS.**—Letters addressed simply to initials as "A. B." "X. Y." or to a Christian name simply, as "John" or to an arbitrary or fictitious name, with a designation of the place of delivery, as "Montreal," "Toronto," but which are not further directed to the care of some named person, firm or institution, or special Post Office Box, are not to be accepted, if handed in at a Post Office; and are not to be forwarded, if dropped in a letter box, but are to be sent to the Dead Letter Office by first mail.

Addressed to initials.

9. **LETTERS ADDRESSED TO A STREET NUMBER.**—Letters addressed simply to a street number or to a room number in a specified building, without the name of a person, firm, &c., may be delivered, provided there is only one household or firm in occupation of the premises indicated; otherwise, letters so addressed will be sent to the Dead Letter Office as insufficiently addressed.

Addressed to street No.

10. **REGISTERED LETTERS.**—These are letters for which a receipt is given by the Post Office at which they are handed in, of which a record is kept during their course through the mails, and for which a receipt is taken before delivery. They are therefore letters to which a special degree of security is given, but for which the Post Office Department does not become in any way pecuniarily responsible. Manifestly a letter (or other article) intended for registration should not be merely dropped into a box or receiver, as in that case a receipt cannot be obtained for it. On the contrary it should be carefully handed in to the Post Office, and a duly stamped receipt obtained for it then and there. A Postmaster, will however register and forward any letter dropped into the receiver of his office, fully prepaid both as regards ordinary postage and registration fee, and will hand a receipt to the sender, if known, at the first opportunity. On the other hand a letter bearing the word "Register," but not fully prepaid will be sent to the Dead Letter Office under registration. The cautions given above (sections 8 and 9) as regards letters addressed to initials, &c., apply with special force to Registered letters of the delivery of which to the person entitled to receive them the Post Office must in all cases have a satisfactory quitance.

Registered.

11. **REGISTRATION FEE.**—Registered letters are subject, in addition to ordinary postage, to a special Registration fee of five cents to be prepaid by stamp. No registered letter is to be knowingly accepted by any Postmaster unless fully prepaid both as regards postage and registration fee; but should such a letter be inadvertently accepted at any office, and forwarded therefrom without sufficient prepayment, it may be forwarded to destination (*See* par. 6) subject to collection of double the deficient postage on delivery. The name of the despatching office should in that case be reported by the office of delivery

Prepayment of Registered letters

to the Inspector of the district in order that the Postmaster in fault may be communicated with. The same regulations apply to registered articles other than letters.

Further regulations in regard to registration will be found on page xix.

Slower despatch of registered articles.

12. Under arrangements made for the greater security of Registered correspondence it sometimes happens that a registered letter will not proceed as expeditiously to destination as an unregistered one; but in no case should this involve a delay of more than 24 hours. Enquiry cannot be too promptly made for any letter known to have been posted which has not arrived in due time.

Redirection

13. REDIRECTED LETTERS.—Redirected letters are not liable to any additional postage, if handed back to the Post Office with a changed address at the moment of delivery or as soon as possible thereafter, provided always the change in the address does not require the letter to be sent to any place to which the postage rate is higher than was at first payable. Thus a drop letter redirected to a place outside the city or town becomes liable to a higher rate and the difference must be prepaid, otherwise double the difference will be collected on delivery.

Redirected letters should not be dropped into a Post Office Box or receiver unless additional postage has been put on to carry them to their second destination.

Request letters

14. REQUEST LETTERS.—A Request letter is one bearing the name and address of the sender on the face of the envelope, with a request for direct return if not delivered. Such requests are to be complied with by the Postmaster of the office of destination, subject to the following regulations:—

(a) The letter must be an ordinary letter, requests not being recognized on Registered letters, which can only be returned through the Dead Letter Office.

(b) The letter must be one originating either in Canada, the United States or Newfoundland.

(c) The "Request" may be either printed or written, but in either case it should be distinct and prominent, and the address of the sender should be sufficiently full to prevent possibility of error in the redirection of the letter.

(d) The number of days for which the letter is to be held before return may or may not be specified. In the former case the Postmaster will be particular not to detain the letter after the expiration of the specified period; in the latter he will hold it for a fortnight.

(e) No charge is made for the return of a fully prepaid Request letter; but if the letter was not fully prepaid when posted, or if having been posted as a "Drop" letter, it is returned to the sender at another post office, the full postage due (double the deficiency) will be collected from the sender on delivery.

(f) The reason for non-delivery should be marked on every "Request" or "Address" letter (see next section) returned.

Address Letters.

15. ADDRESS LETTERS.—By "ADDRESS LETTERS" are understood letters the covers of which bear the printed address of the senders either on the face or on the back, *without* a request for return. Such letters where they fail of delivery are to be returned direct to the senders instead of being sent to the Dead Letter Office. Postmasters will therefor be careful, in making up their Dead Letter returns, not to include therein any letters which under the above regulation should be returned direct to the senders.

Free letters.

16. FREE LETTERS.—(See Franking or free mail matter. Page xvii.)

17. DEAD LETTERS.—(See Dead or undelivered Letters, &c. Page xxi.) Dead letters.

18. SOLDIERS AND SEAMEN'S LETTERS.—Under the head of Foreign Post (See Page xxxix) are given the special regulations under which a reduced rate of postage is allowed for the correspondence of soldiers and seamen (including certain grades of non-commissioned officers) in the Imperial Service whether on duty in Canada or elsewhere. Soldiers and seamen.

19. LETTERS FOR DECEASED PERSONS.—Correspondence, whether registered or unregistered, addressed to a deceased person, may be delivered to the legal representative of the deceased. An exception is, however, made to this rule in the case of letters from the office of the District Paymaster of British North America at Halifax, addressed to an Imperial Army Pensioner or Reservist. Such letters are not to be delivered to any party whatsoever claiming them on behalf of a deceased Pensioner or Reservist, but are to be sent to the Dead Letter Office for return to the District Paymaster.

20. LETTERS FOR AND FROM THE MILITIA.—Letters for or from non-commissioned officers and privates of the Militia of Canada, when on *active service*, can be forwarded between any place in Canada, and any other place in Canada, under the regulations above referred to, on prepayment of 2 cents for each ounce letter. There is no reduction however in the registration fee on such letters when registration is required. Letters for and from militia pass at reduced rates.

All articles other than letters sent to or from soldiers, seamen, and Militia on active service, are to be charged the ordinary rates of postage. But not other articles.

21. Further information and suggestions concerning the treatment of letters will be found under head of "General Laws and Regulations," page xxiii and "Suggestions to the Public," page xxvii. Further information.

### Post Cards.

1. The front or engraved side of a Post Card of the ordinary official pattern is intended for the address, and cannot be used for any other purpose. The department has, however, issued a special card the face of which may be used for advertisements, illustrations, &c., provided that a clear space of at least  $\frac{1}{4}$  inch is left along each of the four sides of the postage stamp, and a clear space  $3\frac{1}{4}$  inches long and  $1\frac{1}{2}$  inches wide reserved for the address at the lower right hand corner of the card. On the reverse side, any communication, whether of the nature of a letter or otherwise, may be written or printed. Conditions, &c.

2. Post Cards may be addressed by means of small adhesive tags, such as are used by publishers in addressing subscribers, but otherwise nothing whatever may be attached to a Post Card, nor may it be cut or altered in any way. If anything is attached, or if it is altered in any way, the card *ceases to be mailable as a Post Card*, and can only be treated as an insufficiently paid letter. Must not be altered

3. Reply halves of British and Foreign *Reply Cards* are recognized as Post Cards when posted in Canada.

4. Private Post Cards duly prepaid one cent each by postage stamp may be posted in Canada for delivery within Canada and the United States under the following regulations: Private Post Cards.

The material used to be ordinary card board not thicker than that used for the cards issued by the Department.

Size not to exceed 6 inches in length by  $3\frac{5}{8}$  inches in width, nor to be less than  $3\frac{1}{4}$  inches in length by  $2\frac{1}{4}$  inches in width.

The words "Private Post Card" to be written or printed on the address side near the top.

The sender of a private Post Card may use the face of the card for advertisements, illustrations, &c., under the same regulations as apply to the special Post Cards above referred to.

Post-marking.

5. Post Cards, both official and private, are to be postmarked only on the face or address side of the Card, both at the office where posted and at the office of delivery, leaving the other side of the Card entirely clear for the use of the sender. In postmarking, care must be taken to interfere as little as possible with the address.

Reply Cards.

6. Official Post Cards are issued both in the single and the double (or Reply) form, each half of the double card bearing a prepayment of one cent. Private Post Cards may also take the form of Reply Cards, provided each half is duly prepaid at the time of posting.

Foreign cards.

7. Should any Cards except those issued by the Department, British and Foreign Reply Cards, and Private Cards conforming to the above regulations be posted in Canada, bearing written communications thereon, they will be treated and taxed as letters, and unless prepaid at least in part by Canadian postage stamps, will be sent to the Dead Letter Office.

Conspicuously improper cards.

8. Postmasters are not intentionally to read Post Cards, passing through their offices, but cards which are so conspicuously improper as to arrest attention, or the "dunning" character of which has, with apparent design, been made prominent, are to be stopped and sent to the Dead Letter Office.

A Post Card can only be used once.

9. A Post Card may not be used a second time, even though prepaid by an additional stamp.

### Legal and Commercial Papers.

Postage rate.

Legal and commercial papers generally, whether wholly written, or partly written and partly printed (including notes of hand, receipts, pass-books, &c.) are liable to *letter rate* of postage, but no objection is made to their inclusion in closed parcels prepaid at the parcel post rate.

### SECOND CLASS MATTER.

Newspapers and Periodicals, addressed to regular subscribers, (including sample copies).

#### Newspapers.

Rates on newspapers and periodicals printed and published in Canada.

1. Newspapers and periodicals *printed and published in Canada*, mailed by the publishers in the Post Office at the place where they are published, and addressed to regular subscribers, or to newsdealers, in Canada, are transmitted by mail to their respective addresses *free of postage*; and may also be delivered free to subscribers at the Office at which they have been posted, except in Cities where the Letter Carrier system has been established. In the latter case ordinary transient newspaper rates are charged.

Conditions.

Any Canadian newspaper or periodical which claims to be entitled to free transmission by mail, must conform to the following *statutory* conditions, namely:—

Definitions.

"It must be known and recognized as a newspaper or periodical in the generally received sense of the word, and consist wholly or in great part of

political or other news, or of articles relating thereto, or to other current topics, and be published regularly at intervals of not more than one month.

“The full title, place and date of publication, and the distinguishing number of the issue must be printed on the top of the first and every subsequent page, and also on any paper, print, lithograph or engraving purporting to be a supplement to it, and sent with it.”

Title, date, &c., to be prominently printed.

“It must be addressed to a *bona fide* subscriber or known newsdealer in Canada. (The same privilege is by agreement with the countries concerned extended to papers addressed to subscribers in the United States and Newfoundland.)

Addressed to subscribers.

“It must be delivered into the Post Office under such regulations as the Postmaster General may from time to time make for the purpose.” (See Section 10 below.)

Delivery to Post Office.

2. The Post Office Act also declares that: “The Postmaster General shall have power to decide whether any publication for which free transmission is claimed, is or is not a newspaper or periodical within the meaning and intent of the Act, and whether the requirements thereof have or have not been complied with in respect of it.” The Postmaster General has further power to make any regulation he may deem necessary to give full effect to the provisions of the Statute or to prevent evasions thereof.

Postmaster General to decide as to claims under statute.

3. Before any newspaper or other publication not heretofore recognized by the Department as entitled to freedom from postage can be admitted thereto, a copy must be submitted to the Postmaster General for his examination and for his decision on its claim under the Statute.

New publications

4. The numbers of such newspapers and periodicals printed and published in Canada as are admitted to pass by Post from the office of publication to regular subscribers, free of postage, may contain folded therein—

a. Supplements—it being understood that a supplement for this purpose is to consist of matter not inserted in the number in which it is folded for want of space in that number, and that it is properly in its contents a part thereof, and is not meant for another distinct and separate object or use. A supplement should bear even date with the number to which it belongs.

Supplements.

b. The accounts and receipts sent from the office of publication to the subscribers, also printed circulars soliciting subscriptions and printed envelopes addressed to the publishing office.

Publishers subscription accounts and receipts.

5. No enclosures, other than those above specified, are to be allowed in Canadian newspapers and periodicals admitted to pass to subscribers free, and Postmasters are to warn Publishers posting at their respective offices that if the Newspapers or Periodicals they post for subscribers contain as enclosures ordinary business hand-bills, notices, advertisement sheets not properly coming under the head of supplements as above defined, or other matter not permitted by these regulations, they will be required to pay postage on the same at the one cent per four ounces rate applicable to third class matter. A supplement must not be printed in such a form as to resemble a hand-bill.

Unauthorized enclosures.

6. Postmasters are required to examine from time to time the newspapers, &c., posted free at their respective offices in order to see that the regulations in regard to enclosures are not being violated or evaded.

Papers posted free to be examined in Post Office.

7. British and United States or other foreign newspapers or periodicals may be posted by newsdealers for transmission by mail to subscribers in Canada at the rate of one cent per pound bulk weight. Each article so posted must be

British and foreign newspapers.

stamped "Prepaid in bulk by News Agent", and the postage must in all cases be prepaid by the cancellation of the necessary stamps at the moment of posting. Such newspapers and periodicals will not however be accepted at that rate for local delivery in places where a free Letter Carrier Service has been established. The ordinary transient (3rd class) paper rate applies in such a case.

Rate on papers published less frequently than once a month.

8. Newspapers and periodical publications printed and published in Canada, issued less frequently than once a month, addressed to regular subscribers and news agents are liable to a rate of 1 cent per lb., or fraction thereof.

Special numbers.

9. Almanacs in sheets, chromos, lithographs, prints or engravings, issued by regular Canadian newspapers and periodicals, specially, and not as part of their regular issue; also, lithographs, prints or engravings issued from a known office of publication in a regular series at intervals of not more than one month, may pass by post at the rate of one cent per pound.

How publishers should put up newspapers for despatch.

10. Printers and publishers should send their papers to the Post Office put up in a manner to admit of their being readily assorted for mailing, and, if necessary, withdrawn from their covers for examination. The newspapers for each Post Office of destination should be made up in strong paper, in a separate parcel, which should be plainly addressed.

Notification to publishers of undelivered newspapers.

11. When the numbers of a newspaper or periodical sent from an office of publication in Canada have remained in a Post Office in Canada uncalled for during four weeks, the Postmaster will notify the respective publishers on the proper form, which form is to pass free of postage, *but will not return the papers*. If the newspaper continues to arrive after the notice has been sent, the Postmaster will notify the publisher in the same way a second time, specially calling his attention to the first notice given. When a newspaper has been *refused* by the party to whom addressed, the publisher should be immediately notified and a second notice should be sent if the paper is not at once stopped.

Specimen copies.

12. *Specimen or sample copies* of newspapers and periodicals from the office of publication are liable to a rate of 1 cent per lb. or fraction thereof, and all *specimen copies* must be stamped or marked by the publishers "sample copy." After sample copies have been admitted to the mails the presence upon them of the mark or stamp above indicated will be accepted by all Postmasters through whose hands they may pass as evidence that the necessary postage has been paid at the office of posting.

A reasonable number only of specimen copies allowed.

13. Specimen copies entitled to pass at the 1c. per lb. rate are those sent out with a view to making the paper known, and securing additional subscribers; and the number of such copies should bear some reasonable proportion to the number addressed to regular subscribers, and the circulation which the particular journal might be expected to attain. Whenever the number of sample copies posted by a journal with but a limited subscription list is relatively very large, there is always ground for enquiry as to whether the paper is not being used as a hand-bill to advertise some particular business or institution in which the publishers are interested. In such a case the copies sent out should be prepaid at the ordinary transient newspaper rate, and Postmasters are requested to see that the regulations are not evaded in this respect. Copies containing a particular advertisement sent to names furnished, or to a district of country indicated, by the party or parties interested in such advertisement, are not entitled to pass as sample copies, nor can a "marked" copy be recognized as a sample copy.

Postmasters to report non-prepayment of certain newspapers.

14. When papers, not sample copies, are received for delivery wholly unpaid, addressed to persons who are not subscribers, the attention of the Department should be called to the matter, and the name of the paper given.

15. The privilege of free transmission, or of transmission at the 1c. per lb. rate, does not apply to copies of newspapers sent to advertisers in part consideration for the amount paid by them for the publication of their advertisements, nor to copies sent to addresses furnished by advertisers, or to persons whose subscriptions have been paid in whole or in part by interested parties. Such copies cannot be considered as addressed to subscribers, or as specimen copies, but simply as transient newspapers liable to postage at the rate of 1c. per 4 ozs. to each separate address.

Special copies sent to advertisers or in interest of advertisers.

Whenever it is possible to make the price at which a given number of envelopes is sold strictly proportional to the price per hundred, it will be done.

Sale by licensed stamp vendors.

2. With the approval of the Postmaster General, Postage Stamps, Letter Cards, Stamped Envelopes, Post Cards and Post Bands are sold to certain dealers to retail again to the public.

License required to sell stamps and stamped envelopes.

3. It is not lawful for any person, other than a Postmaster, to exercise the business of selling Stamps or Stamped Envelopes to the public, unless duly licensed so to do by the Postmaster General, and under such conditions as he may prescribe.

Vendors should always be supplied.

4. Should there be difficulty at any time in procuring Postage Stamps at any Post Office where Stamps are sold directly to the public, or from any person claiming to be a licensed Stamp Vendor, the public are invited to bring the matter to the notice of the Postmaster General.

5. No person who may be licensed by the Postmaster General to sell Postage stamps is at liberty to dispose of them for any less or greater price than their face value. Postage stamps to be sold at face value.

6. The impressed Stamp cut from an Envelope or Post Band cannot be used for prepayment of postage, but, when so detached, loses all value as a Postage Stamp. Stamps detached from Post Bands, &c., valueless

7. Individuals or companies requiring to send out a very large number of printed circulars, may have a one cent stamp impressed on such circulars by applying to the Department.

8. PERFORATED STAMPS.—No objection is made by the Department to the perforation of postage stamps with the initials of the individual or firm using them. Perforation.

9. MUTILATED STAMPS.—No mutilated stamp, and no stamp so soiled as to suggest that it may have been used before, will be accepted in payment of postage. Mutilation.

10. No British Postage Stamp, or Postage Stamp of a Foreign Country, or Bill, or Law Stamp, can be received in prepayment of postage in Canada. Postage in Canada cannot be paid by British or foreign stamps.

11. Postmasters who are not supplied with stamps direct from the Department should be very careful to purchase stamps only from an authorized city office, as otherwise the Department will have no knowledge of the amount of stamps they use, which will simply go to swell the apparent revenue of the Post Office at which they are obtained. Caution to non-accounting Postmasters.

12. PRIVATE POST CARDS.—For the regulations respecting Private Post Cards, see under the head of Post Cards, page vii. Private Cards.

13. LETTER CARDS.—These cards, admitting of being sealed, possess, within the limits imposed by their size, all the advantages of a letter, and are subject to the same postage rates as letters. The two cent letter-cards are intended for use instead of drop letters in places where the drop letter rate is two cents, and one cent cards in places where the drop letter rate is one cent. It should be distinctly understood that the 1 cent letter card *cannot be used as a post card even though sent unsealed*. If so used double the deficient postage at letter rate will be charged on delivery. Letter Cards.

### Dead and Undelivered Letters, &c.

1. Letters, Newspapers and other articles, which from any cause remain undelivered in any Post Office, or which, having been posted, cannot, under the Regulations of the Department, be forwarded to destination, are sent to the Dead Letter Office at Ottawa. Undelivered letters which can not be forwarded sent to Dead Letter Office at Ottawa.

2. Every Dead Letter returned to the sender is subject to a special statutory charge of 3c. for return, in addition to whatever may be due on account of any insufficiency in original prepayment. Charge for return to sender.

3. If a Returned Dead Letter cannot be delivered to the person to whom it is addressed at the Post Office to which it is sent by the Dead Letter Office, it must not be redirected to any other office, but must be promptly returned to the Dead Letter Office. Returned Dead Letters not to be redirected.

4. The reason for the non-delivery of every letter or other article of mailable matter must be stamped or written on the address side thereof before sending it to the Dead Letter Office. Each letter or other article of mailable matter should at the same time be stamped with the dated stamp of the Post Office from which it is sent to the Dead Letter Office. Reason for non-delivery to be indicated on cover.

5. Undelivered and refused newspapers are not to be returned to the publishers, but are to be sent, as above stated, to the Dead Letter Office. (See, as regards notification to publishers, section 11, under head of Second Class Matter, page x). Undelivered newspapers not to be returned.

### Prohibited articles.

The following articles are excluded from the mails :

Dangerous substances.

1. Any explosive, dangerous or destructive substance or liquid, or any matter or thing likely to injure any letter or other mailable matter, or the person of any officer or servant of the Post Office.

Glass.

2. A glass bottle, or glass in any form liable to break, matches, leeches and also fish or fruit, unless put up in the manner prescribed under Fifth Class matter, clauses 9, 10 and 12.

Liquids and oils.

3. Liquids and oils are prohibited unless put up in the manner prescribed under fifth class matter, clause 9.

Obscene and immoral books, &c. and letters or post cards bearing injurious words devices, &c.

4. It is forbidden to post for delivery or transmission by or through the post any obscene or immoral book, pamphlet, picture, print, engraving, lithograph, photograph or other publication, matter or thing, of an indecent, immoral, seditious, disloyal, scurrilous or libellous character, or any letter upon the outside or envelope of which, or any post card or post band or wrapper upon which there are words, devices, matters or things of the character aforesaid, or any words tending to injuriously affect the commercial or social standing of the persons addressed, or any letter or circular concerning an illegal lottery so-called gift-concert or other similar enterprise offering prizes or concerning schemes devised and intended to deceive and defraud the public for the purpose of obtaining money under false pretences. Matter posted contrary to this prohibition is to be stopped and sent *especially by first mail* to the Postmaster General at Ottawa.

(The clause, "tending to injuriously affect the commercial or social standing of the person addressed," applies to correspondence posted by collecting agencies on which the dunning character of their business is made unduly prominent with evident intention to annoy.)

5. Any matter coming within the foregoing definitions, which may be posted at a Post Office in Canada, or received in Canada in the mails from any other country, will be stopped, and if it be liable to Customs duties be sent to the nearest Collector of Customs. Any matter which cannot for the reasons mentioned in paragraph 4 properly be forwarded by mail is to be sent specially to the Deputy Postmaster General by the first mail.

### Illegal Lotteries.

The Postmaster General has power, under the Statute, to mark or cause to be marked upon the covers of letters, circulars, or other mail matter suspected to concern illegal lotteries, so called gift concerts or other illegal enterprises of like character offering prizes or concerning schemes devised or intended to deceive or defraud the public for the purpose of obtaining money under false pretences, whether such letters, circulars or other mail matter are addressed to or received by mail from places within or without Canada, a warning that they are suspected to be of a fraudulent character; and in cases where the illegal or fraudulent character of a lottery or other scheme or enterprise has been clearly established, Postmasters may, and shall, under instructions from the Postmaster General, carry out the provisions of the Statute upon this point.

Lotteries and other fraudulent schemes.

### Letters or Packages containing Contraband or Dutiable Goods.

Section 45 of the Post Office Act 49 Vict. cap. 35, 1886, as amended by section 11 of the Act of 1889, reads as follows :—

Every Postmaster, clerk or other person employed in the postal service of Canada shall detain any post letter, parcel, package or other article of mail matter, which contains or is suspected to contain any contraband goods, or any goods, article or object subject under any customs or other revenue law to duty on being imported into Canada, or the importation of which into Canada is prohibited, and shall deliver the same to a collector or other proper officer of Customs, who may cause the same to be opened in his presence and for his inspection by the person to whom it is addressed, or some one by him thereto authorized, for the purpose of ascertaining and exacting the proper amount of duty, if any, payable thereon; and after payment of duty, if any is found to be payable, the letter, parcel, package or other article of mail matter shall, if the person to whom it is addressed or his authorized agent is present, be handed over to him on his paying the postage, if any, charged thereon; or if he is not present, it shall be returned to the Post Office and be forwarded to the place to which it is addressed; but if such post letter, parcel, package or other article of mail matter is found to contain contraband goods or any article the importation of which is by law prohibited, the same shall be forfeited and be dealt with as the law directs.

Detention of letters, &c., containing dutiable goods.

The regulations above quoted apply both to matter received in the ordinary mails from other countries and to parcels received by Parcel Post from all places abroad.

Application.

### General Laws and Regulations.

1. The Postmaster General has the sole and exclusive privilege of conveying, receiving, collecting, sending and delivering letters within Canada; and

Except in certain cases no one but the Postmaster

General to collect, convey and deliver letters in Canada on pain of a fine.

(except in the cases hereinafter mentioned) any person who collects, sends, conveys or delivers or undertakes to convey or deliver any letter within Canada, or who receives or has in his possession any letter for the purpose of conveying or delivering it, otherwise than in conformity with the Post Office Act, for each and every letter so unlawfully conveyed or undertaken to be conveyed, received, delivered or found in his possession, is liable to a penalty not exceeding twenty dollars. The term letters as used in the Act, is held to include circulars.

The exceptions—

2. The following are the excepted cases :—

Letters by Private friends,

Letters sent by a private friend in his way, journey or travel, provided such letters be delivered by such friend to the party to whom they are addressed.

Messenger.

Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver.

Commissions, Writs, &c.

Commissions or returns thereof, and affidavits or writs, process or proceedings or returns thereof, issuing out of a Court of Justice;

Private vessel.

Letters addressed to a place out of Canada, and sent by sea and by a private vessel;

Posted on arrival in Canada.

Letters lawfully brought into Canada, and immediately posted at the nearest Post Office;

Letters with goods, &c.

Letters of merchants, owners of vessels of merchandise, or of the cargo or loading therein, sent by such vessel of merchandise, or by any person employed by such owners for the carriage of such letters, according to their respective addresses, and delivered to the persons to whom they are respectively addressed, without pay, hire, reward, advantage, or profit for so doing;

The same.

Letters concerning goods or merchandise sent by common known carriers to be delivered with the goods to which such letters relate, without hire or reward, profit or advantage for receiving or delivering them;

Proviso.

But the Post Office Act does not authorize any person to collect any such excepted letters for the purpose of sending or conveying them as aforesaid,—nor does it oblige any person to send any newspaper, pamphlet or printed book by post.

In case of contravention letters may be seized and charged with postage.

3. It is the duty of any officer or person employed in the Post Office or in the collection of the Revenue of the Dominion, to seize any letters conveyed, received, collected, sent or delivered in contravention of the Act, and take them to the nearest Post Office, and give such information to the Postmaster as he may be able to give, and as is necessary for the effectual prosecution of the offender, and the letters will moreover be chargeable with letter postage.

Postage may be required in advance of delivery.

4. A Postmaster cannot be required to deliver a letter, parcel or any other article of mail matter until all postage due thereon is paid by the party to whom the same may be addressed.

Recovery of deficient postage in case of undelivered letters, &c.

5. If a letter or packet is refused, or the party to whom it is addressed cannot be found, any postage thereon is recoverable with costs, by the Postmaster General, from the sender of such letter or packet.

Refunds.

6. In cases of overcharge refunds can only be made upon authority from the Department.

Return of letter to sender not allowed.

7. A letter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its directions. On no application, however urgent, can it be delivered back to the writer, or to any other person.

Letters addressed to firms, &c.

8. A letter addressed to a firm may be delivered to any member of the firm. If addressed to several persons it may be delivered to any one of them.

9. A letter delivered to the wrong person in consequence of his name being the same as that of the person for whom the letter is intended should be at once returned to the Postmaster from whom received ; and if it has been opened, the party who opened it should write on the cover, "opened by me through mistake," and sign his name thereto. In every case in which a letter which has been opened accidentally or otherwise is sent to the Dead Letter Office, it should be accompanied by an explanation of the circumstances, and if it is observed to contain money or anything of value, it should be registered. Every such letter should be resealed as promptly as possible by the Postmaster.

Letters delivered to wrong parties.

10. Letters posted without any direction, or addressed so imperfectly that they cannot be forwarded to their intended destinations, as well as letters which cannot be sent forward on account of non-payment or short payment of postage, must be sent to the Dead Letter Office by *the first mail* in order that they may be returned to the writers.

Letters posted without proper direction or prepayment.

11. If a letter be forwarded under cover to a Postmaster with a request that he will re-post it at his office, the letter on being re-posted will be endorsed with the words "posted at——under cover to the Postmaster at——."

Letters forwarded under cover to Postmaster to re-post.

12. No information can be given respecting letters which pass through a Post Office, except to the persons to whom they are addressed, and to the senders when enquiring respecting delivery. Postmasters are *not* permitted to furnish any information respecting the names or addresses of persons who receive correspondence at their respective offices.

No information to be given.

13. Under no circumstances is a Postmaster authorized to open the letter of another party received for delivery at his office, or passing through his office.

Caution to Postmasters.

14. Correspondence addressed for delivery at one office cannot be delivered at another en route, but must be forwarded to the destination indicated.

Not to be delivered en route.

15. Parties desiring to have their letters and papers re-directed should give or send an intimation to that effect in writing to the Postmaster of the office from which the letters and papers are to be re-directed, and the Postmaster should carefully file such requests in his office and see that they are not overlooked. The parties whose correspondence is thus re-directed should take steps to inform their correspondents of their change of address so that the Post Office may not be put to unnecessary trouble in the matter.

Re-direction of letters.

Postmasters may re-direct any letters (with the exception of Returned Dead Letters) which, to *their certain knowledge*, should have been addressed to another Post Office ; but due allowance should always be made for the possibility that the party addressed may intend to visit the place to which the letter was addressed and call for his correspondence at the Post Office there. No Postmaster, however, should assume the responsibility of altering the address or destination of a letter upon mere conjecture, however probable or plausible such conjecture may appear.

Great caution to be used.

A Postmaster receiving a re-directed letter should read the original address carefully, and then examine the postmarks to see if it has been at the office for which it was at first intended. It has happened sometimes that owing perhaps to some obscurity in the address a letter has been redirected to several offices in succession without ever having been received at the office intended by the sender.

Examination of redirected correspondence.

16. Postmasters are requested to exercise all possible care to prevent the detention of letters which may have been accidentally missent to their offices. This can only be accomplished by a careful scanning of addresses, and the prompt despatch to destination of any letter or letters found to have been missent. Every such letter should, in addition to being back-stamped on receipt, be stamped on the face with date of re-despatch and with the words

Missent Letters.

"Missent to" on the left hand of the date stamp. A careful performance of this duty will greatly tend to promote a correct treatment of correspondence.

17. Postmasters should be careful to report any errors they may observe in the handling of mails, rating of correspondence, &c., for which purpose they may place themselves in communication with the Post Office Inspector or Superintendent of Railway Mail Service, according to the nature of the case.

**Fictitious names.** 18. Letter-boxes or drawers cannot be rented to persons giving fictitious names.

**No credit allowed.** 19. Postmasters are not authorized to give credit for postage, postage stamps, box rents or any other item of postal revenue; if they do so it is entirely at their own risk.

**Request for direct return.** 20. Requests for direct return in case of non-delivery are recognized on all classes of matter originating within the Dominion, the United States, or Newfoundland. In the case of letters no charge is made for such direct return. In the case of Third, Fourth and Fifth Class matter a charge is made equal to the original postage.

**Request letters in hotel envelopes** 21. Guests at a hotel sometimes use request envelopes belonging to the hotel, and if letters contained in such envelopes fail of delivery they have to be treated as request letters. The Postmaster at the office of origin receiving back letters of this class should ascertain whether they can be dealt with satisfactorily at the hotel; if not, they should be sent to the Dead Letter Office.

**Postmasters not bound to give change.** 22. A Postmaster is not legally bound to furnish change to persons purchasing stamps wherewith to prepay their letters, nor is a Postmaster required to affix stamps for the public to letters, &c., posted at his office, but may require that the exact amount of postage due upon any letter or packet be tendered to him in current coin, and that the necessary postage stamps be affixed thereto before any letter or packet is accepted for posting. It is not desirable that a Postmaster should place stamps on letters for the public.

**Nor to redeem stamps.** 23. A Postmaster is not required to redeem or exchange postage stamps, nor is it desirable he should do so. If stamps are tendered to a Postmaster for redemption in any considerable quantity he should report the matter at once to the Department, giving full particulars.

**Civility required from Postmasters.** 24. Postmasters and their assistants in the above matters, as well as in all their official intercourse with the public, are expected to afford all proper accommodation, and to treat all persons having business at their offices with the utmost courtesy.

**Mail couriers to receive letters en route.** 25. Mail couriers are authorized and required to receive letters offered to them whilst on the road between one Post Office and another, provided that when a letter is so offered the distance from the nearest Post Office exceeds one mile. Such letters are termed Way Letters, and must be prepaid by stamp.

**Treatment of matter which cannot legally be sent forward** 26. Postmasters and Railway Mail Clerks are specially instructed to forward *immediately, direct to the Deputy Postmaster General*, all matter which cannot legally be forwarded through the post owing to its improper character (*see paragraph 4 under head of "Prohibited Articles"*), and also to transmit by the first mail, to the Dead Letter Office, all articles which having become detached from their covers are found loose in the mails; a memorandum stating when and where it was found should accompany each article.

**Letters to be post marked.** 27. Postmasters should be careful to postmark distinctly all letters posted or received at their offices and to effectually cancel all stamps thereon.

28. Stamps should be affixed to letters on the right hand upper corner of the face or address side. How to place stamps.
29. All letters which may be posted having postage stamps affixed thereon which appear to have been previously used are to be postmarked and transmitted to the Postmaster General, the words "*Stamp previously used*" being written across the face of the letter. Previously used stamps.
30. Postmasters desiring to absent themselves from their offices for more than a few days are required to make application to the Department for authority and to furnish the assent of their sureties on a form which the Department will provide. The authority of the Department must be obtained also before the location of an office is changed. Leave of absence for Postmasters. Change of site of Post Office.

### Suggestions to the Public.

Facility will be given to the Post Office in the discharge of its daily duties, and greater security and expedition afforded to correspondence by careful attention to the following recommendations:—

1. Post all letters and newspapers, or other mailable matter, as early as practicable, especially when sent in large quantities. Early posting.
2. When a number of circulars are posted, tie them up in a bundle, with the addresses all in one direction. Circulars.
3. Address all correspondence in a legible and complete manner, always giving the name of the Post Office and of the PROVINCE in which it is situated. If the name of the County is known it may conveniently be inserted before that of the Province, but its omission will not in general cause any trouble. It is important that the address should not contain any *unnecessary* words or names. If the letter is intended for delivery by Letter Carrier in a City, state the street and number of the house at which to be delivered. In case of letters going abroad, the name of the country as well as of the town and city, should be given in full. Letters, for example, intended for London, England, if simply addressed "London," would be forwarded to London, Ontario, and thus be delayed. In like manner letters intended for the United States should *invariably* have the words "United States", on at least the initial letters "U.S." (carefully written so as not to be mistaken for "N.S.") added to the address. Proper address.
4. Letters for Commercial Travellers should be so addressed as to prevent their delivery to persons of the same name who may happen to be permanent residents of the places to which such letters are addressed. Letters for Commercial Travellers
5. Should it be desired to send a letter or newspaper by any particular line of Packet or by any particular route, the special address should be clearly written *above* the ordinary direction as "By Canadian Packet," or "*via* New York." Indication of route.
6. Place Postage Stamps on the right hand upper corner of the address side of all Letters, Papers, and Packets intended for transmission by Mail. Affixing of postage stamps.
7. In affixing postage stamps, the *corner of the envelope* and the face of the stamp should be slightly wetted, and then the stamp should be gently pressed until it is firmly fixed. The practice of dipping postage stamps in water is objectionable, because unless the stamp be immediately withdrawn the gum may be washed off. Best method of affixing.
8. The Post Office Department does not sell postage stamps, post cards, etc., direct to the public. These must be obtained through Postmasters or licensed stamp-vendors. Postage stamps.
9. Every letter should contain the full name and address of the writer, in order to insure its return if the person to whom it is directed cannot be found. Letters to contain full address of writer
10. If a letter be forwarded under cover to a Postmaster with a request that he will re-post it at his office, the letter on being re-posted will be endorsed with the words "posted at———under cover to the Postmaster at———."

- Enquiries of Postmasters. 11. Persons writing to Postmasters for information should enclose the amount of postage necessary to prepay the reply.
- Secure folding. 12. See that every letter, newspaper, or other packet sent by post, is securely folded and sealed. Every such packet has to be several times handled; and even when in the mail bag is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break.
- Inferior envelopes. 13. Avoid, if possible, using envelopes made of thin or brittle paper, especially where more than one sheet of paper is enclosed. The necessary handling and stamping of such envelopes, and the pressure or friction to which they are subject in course of post, will sometimes cause them to split or wear open, thereby giving rise to complaint against officials entirely innocent.
- Newspaper covers. 14. Fasten the covers of newspapers firmly, so as to prevent the papers from slipping out, but not so as to render examination impossible.
- Posting in Letter box. 15. When dropping a letter or newspaper into a letter-box, always see that the packet falls into the box, and does not stick in its passage.
- Registered letters. 16. When posting letters, etc., to be registered, be careful to obtain a certificate of registration, and examine it to see that it is properly dated and otherwise correct.
- Letters for hot climates. 17. Never seal letters for the East and West Indies, and other hot climates, with wax. Such a practice is attended with much inconvenience, and frequently with serious injury, in consequence of the melting of the wax and the adhesion of the letters to each other. In all such cases, use either wafers or gum, and advise your correspondents in the countries referred to to do the same.
- Letters containing money or value. 18. Never send money through the Post Office, except either by means of a money order or a registered letter. Money and other valuable articles should be placed in strong covers very carefully closed. Persons receiving registered and other valuable letters should be careful to preserve the covers until they have fully verified the contents. When such letters are duly received a prompt acknowledgement will often save trouble.
- Missing letters and papers. 19. When letters or papers are missing, at once communicate the fact to the Postmaster General at Ottawa, or to the Inspector of the division in which is situated the Post Office at which the missing letters were posted. In case of a missing letter enclosing value, state the exact contents, the exact address, and the office at which posted; the name of the person by whom posted, and the name of the person by whom received at the office.
- Supposed abstraction of money or value from letters. 20. In the event of a supposed abstraction of money or value from a letter, send the letter and cover to the Postmaster General stating day and hour on which delivered, name of Postmaster or Clerk by whom delivered, and persons by whom received. It is very desirable that every case of delay, loss, or abstraction, should be promptly reported.
- Delayed letters and papers. 21. When letters or papers are delayed at once communicate the fact to the Postmaster General at Ottawa, or to the Superintendent of the Railway Mail Service of the District in which is situated the Post Office at which the delayed letters were posted. In the case of a delayed letter or paper, send the cover or wrapper in an entire state, in order that the place of delay may be ascertained by an examination of the postmarks.
- Strict enquiry in case of loss. 22. Trouble and loss occasionally arise out of the carelessness or dishonesty of parties employed in the Post Office service; yet instances are not wanting in which it has been shown to the satisfaction even of the complainants, that the fault at first attributed to the Post Office, in truth rested in other quarters. Thefts by private hands, although very difficult of proof, have not unfrequently been brought to light; and it is gratifying to see that those who suffer easy

should, in the first instance, and while the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers forming the subject of inquiry, and lose no time in communicating this information to the Postmaster General. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Department or not.

23. The Post Office Department is, by law, exempted from pecuniary liability for losses occurring in course of post, whether of registered or of unregistered articles.

24. In certain cases of alleged loss, which the Department has been called upon to investigate, it has been found that the claim that money had been sent by post, or that a certain sum had been sent by post, was fraudulent. Whenever possible, the Department has instituted a prosecution in such cases—a false allegation of this nature constituting an indictable offence—and several persons have been sentenced to prison as the result. The Department has also prosecuted with a similar result persons who have misappropriated letters intended for other parties of which they had obtained possession through accidental misdelivery by the Post Office.

25. The Post Office is a department which admits of constant improvement and expansion. The public, by sending to the Postmaster General, clear and correct information respecting faulty arrangements, may materially benefit the service. It must be remembered, however, that changes in machinery so extensive and intricate as that of the Post Office, must be made cautiously and with much previous consideration. Improvements

26. Time is generally required to carry out any material change in postal arrangements; for even when decided upon, old contracts requiring notice of termination may have to be got rid of, and tenders for new contracts invited by public advertisement, before the decision can take effect. Time required to make changes.

27. New Post Offices are established by the Department wherever it is ascertained that a sufficient number of inhabitants can be accommodated, and there is a probability of a sufficient amount of correspondence, to warrant such a measure. When a new Post Office is required, a petition should be addressed to the Postmaster General at Ottawa, signed by as many of the inhabitants as can conveniently subscribe to the same, but only by such as propose to make use of the Post Office if established. The petition should state the name of the township or parish and the number of the lot and concession on which it is desired the office should be established; the distance from the neighbouring offices; whether there is a village at the site of the proposed Post Office; the number of mills, stores, taverns, and houses thereat; the extent of the settlement to be served, and the probable cost of the mail service; together with any other facts which may form any ground for giving the accommodation applied for. New Post Offices

## FOREIGN POST (INCLUDING BRITISH AND COLONIAL).

### POSTAL UNION REGULATIONS.

The postage on correspondence passing between Canada, Europe (including the United Kingdom), the larger part of Asia, certain portions of Africa, the whole of the American continent and Australasia is governed, with certain exceptions as regards correspondence with the United States, and Newfoundland, by the regulations of the Universal Postal Union.

Under these regulations all correspondence is divided into the following classes.

1. Letters and Post Cards.
2. Newspapers and printed matter generally.
3. Samples and Patterns.
4. Commercial Papers.

### Letters.

- Rate.** 1. The rate of postage on letters addressed to all Postal Union countries, with the exception of United States and Newfoundland, is 5c. per half ounce. The rates on correspondence to the United States and Newfoundland are governed by special conventions and are given elsewhere. (*See page xxxv*).
- Prepayment not compulsory in case of ordinary letters.** 2. Prepayment on letters addressed to Postal Union countries generally is not compulsory, but in case of non-prepayment or insufficient prepayment, the letters are stamped T (representing the word "tax") at the despatching Exchange Office, and go forward subject to a charge of double the amount of deficient postage.
- Charge on unpaid or insufficiently paid letters.** 3. Unpaid or insufficiently paid letters posted in Postal Union countries addressed to Canada are likewise charged on delivery in this country with double the deficient postage. If however the insufficient prepayment is due to the fact that the letter was posted in the first place as a domestic letter and was afterwards re-directed to another country, the simple deficiency only in the Postal Union rate is collected on delivery. This applies not only to letters but to all other classes of mail matter. It is important for Postmasters and the public to remember that the unit of weight for foreign letters generally—those addressed to the United States and Newfoundland are exceptions to the rule—is half an ounce, not one ounce. Forgetfulness of this frequently leads to underpayment and consequent annoyance.
- Registered letters to be fully prepaid.** 4. Registered letters must, however, be fully prepaid at the time of posting, and if not fully prepaid, as regards both postage and registration fee, will not go forward.
- Registration charge**  
**Re-direction.** 5. The Registration fee to all Postal Union countries is five cents.  
6. A letter may be re-directed from one Postal Union country to another without additional charge provided the Postal Union rate has been prepaid thereon. In the case of a Registered Letter all charges must be fully prepaid.
- Deficient postage reckoned in centimes.** 7. The deficient postage on short-paid letters from Postal Union countries is reckoned in the first place in centimes, not cents, five centimes being the equivalent of one cent, and Postmasters in Canada have sometimes been misled by this circumstance into making excessive charges on the delivery of such letters. Thus a double-rate letter from England or France prepaid one rate only, would be marked by the despatching Office with the figures 25, signifying 25 centimes (=five cents), short-prepayment, to be doubled on delivery, making a charge of 50 centimes or 10 cents. It is the duty of the Exchange Office receiving such letters to indicate in Canadian currency the exact amount to be collected, and to cancel the figures representing the centimes.
- Route to be indicated.** 8. It is desirable to mark on all letters and other articles of correspondence, the route by which it is intended they should be forwarded. Thus if the sender of a letter addressed to England or Germany wishes it to go *via* New York he should so mark it.

### Post Cards.

- Rates.** 1. A special Post Card bearing a prepayment of 2c. is provided for correspondence with Postal Union Countries, and it is desirable that this card should be used for the purpose. The Department will not, however, refuse to

forward domestic (1c) Post Cards to which an additional one cent stamp has been affixed.

2. Certain Postal Union countries have introduced the use of Reply Post Cards for international correspondence. The reply halves of such cards may be posted in Canada, addressed to the country in which the card originated. Reply post cards.

3. Certain foreign countries have also introduced the use of Private Post Cards, and such cards when received in Canada, duly prepaid by a stamp of the country of origin will be delivered without charge.

4. Private Post Cards prepaid 2 cents, may be posted in Canada addressed to any of the following countries: Austria, Hungary, Belgium, France, Great Britain, Italy, Newfoundland and Switzerland. Such private cards should not exceed the official Post Card in size and the face should be reserved exclusively for the address and the superscription "Private Post Card". Private Post Cards.

5. The same general regulations which govern the use of inland Post Cards apply to the cards used for international correspondence, that is to say: one side is reserved exclusively for the address and one side for the communication; nothing must be attached to the card except an additional stamp when necessary; the card must not be cut or altered in any way; and all postmarkings are to be on the address side only. A card presenting any irregularity will not be forwarded, but sent to the Dead Letter Office. Communication to be on one side only. Card not to be altered, cut, &c.

6. If any other cards, than those above mentioned, be posted in Canada, having upon them written communications of the nature of a letter, they cannot pass as Post Cards, but must be prepaid as letters. Ordinary cards of other countries not mailable, except as letters.

### Printed Matter.

1. The rate on printed matter generally, newspapers, books, &c., addressed to Postal Union Countries, is 1c. per 2 ozs. Such matter should be fully prepaid, and will not be forwarded unless at least partially prepaid. Any deficiency in the prepayment will, as in the case of letters, give rise to a double charge on delivery. Rate.

2. The following is a list of the principal articles which may be forwarded to Postal Union Countries at printed matter rate:— List of articles

Newspapers, periodical works, books (stitched or bound) pamphlets, sheets of music (printed), visiting cards, address cards proofs of printing (with or without the manuscript relating thereto), engravings, photographs (when not on glass or in frames containing glass), drawings, plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved or lithographed, and in general all impressions or copies obtained upon paper, parchment or card-board, by means of printing, lithographing or any other mechanical process easy to recognize, except the copying press, and anything usually attached or appurtenant to any of the before-mentioned articles in the way of binding, mounting or otherwise, and anything convenient for their safe transmission by post which shall be contained in the same packet; also printed, engraved or lithographed circulars, notwithstanding that such circulars may be letters or communications in the nature of a letter.

3. Every packet of such matter must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise) or in an open cover so as to admit of the Mode of putting up

- contents being easily withdrawn for examination ; otherwise it cannot be forwarded and will be sent to the Dead Letter Office. For the greater security of the contents, however, it may be tied at the ends with string; postmasters being authorized to cut the string in such cases, although, if they do so, they must again tie up the packet.
- Size and weight. 4. No packet of printed matter may exceed two feet in length or one foot in width or depth, or weigh more than 4 lbs.
- Enclosures. 5. No newspaper, whether posted singly or in a packet, may contain any enclosure except the supplement or supplements belonging to it, but printed matter, samples and "commercial papers" (*see* definition under that head) may be made up in one package, provided the whole admits of easy inspection, and provided also that, if commercial papers are included, the rate applicable to that class of matter is prepaid. (*See* instructions on this point in the next chapter.)
- Mixed packages.
- Permissible writing. 6. There must be no writing or mark of the nature of writing on a newspaper sent abroad, but the name and address of the person to whom it is sent ; nor anything on the cover but such name and address, the printed title of the publication, the printed name and address of the publisher or vendor who sends it, and words indicating the date on which the subscription to the newspaper will end. Upon Christmas cards received from or addressed to the United Kingdom, simple greetings in writing are not objected to.
- To be printed on. 7. No articles are allowed to pass as printed matter unless the material on which the printing is done is paper, parchment or card board.
8. Packets of printed matter not conforming to the above regulations are sent to the Dead Letter Office.

### Samples and Patterns.

- Rate. 1. The sample rate to Postal Union countries is the same as the printed matter rate, with this exception, that the lowest prepayment accepted on a sample package is two cents. This prepayment will, however, cover a weight of four ounces.
- Matter excluded. 2. No article liable to Customs duty in the country of destination can be sent as a sample or pattern, nor can any article of merchandise, however small its value, be forwarded by sample post unless in the strictest sense intended to serve the purpose of a commercial sample. No sample must have a saleable value.
- Mode of putting up. 3. Patterns or samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of flour, seeds, drugs and such like articles, which cannot be sent in covers of this kind, may be posted enclosed in boxes, or in bags of linen, or other strong material, fastened in such a manner that they may be readily opened. Ordinary paper bags or covers are not to be used for enclosing flour or other similar matter.
- Written communication prohibited. 4. There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade mark or number, and the price of the articles. But a packet for any country in the Postal Union may have enclosed in it any of the articles designated "Commercial Papers" if the rate applicable to Commercial Papers be paid for the whole packet.
- Commercial papers may be enclosed. 5. Articles which might injure the mails or persons handling them, will only be forwarded by post on condition of being put up in such a way as to guard effectually against such danger, while admitting of easy examination.
- Dangerous articles to be specially put up.

6. Sample packets of liquids, oils, &c., cannot be sent to the United Kingdom or *via* the United Kingdom, on account of objections made by the British Post Office to allowing such matter to pass otherwise than by parcel post. They may, however, be sent to all countries except Russia on the Continent of Europe, by the direct mails for France, *via* the United State, which are made up weekly at the Montreal Post Office. These packets must be put up in the manner indicated on page xvi, par. 9. Liquids, Oils,

7. The limits of weight and size for sample packets, posted in Canada, addressed to other countries are indicated on page lvii. Weight and dimensions.

### Commercial Papers.

1. The term "Commercial papers," is understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, and other papers of a similar description. Definition.

2. The rate on "commercial papers" is the same as on the two preceding classes of matter, namely, 1 cent per 2 ounces. There is, however, this special proviso in the case of commercial papers that no packet containing them must be prepaid less than 5 cents. This prepayment will cover a weight of 10 ounces; each subsequent 2 ounces requiring a further prepayment of 1 cent. Rate.

3. The limits of size and weight are the same as in the case of Printed Matter. Limits.

### Registration.

1. All classes of matter addressed to Postal Union countries may be registered on payment by stamp of a registration fee of five cents. Charge.

2. All registered matter must be fully prepaid or it will not be forwarded, but sent to the Dead Letter Office by first mail, and the Postmaster at whose office the letter was posted will be held responsible for the deficient postage. Full prepayment required.

3. No letter must be registered for any Postal Union country (see, however, an exception under head of "United States") if it appears to contain coin or jewellery. Prohibition.

4. The sender of a registered article addressed to any Postal Union country, may obtain an acknowledgment of its receipt by the addressee, on payment of a special fee of five cents in advance at the time of registration, the stamp representing the fee to be placed on the letter in addition to the ordinary postage and registration fee. The letter or other registered article will then be stamped with the letters "A. R." (signifying Acknowledgment of Receipt) and these letters will indicate to the office of destination that a special receipt is required. In like manner, Postmasters in Canada will require to send a receipt on the prescribed form to the office of despatch in every case in which a letter reaches their offices marked or stamped A. R. Receipt for registered article.

The following model indicates the proper mode of prepaying and marking a Registered letter for which an acknowledgment of receipt is required :

<b>A. R.</b>	5 cents fee for acknow- ledgment of receipt.	Postage and registra- tion fee.
<p><b>MONSIEUR PAUL LAMBERT,</b></p> <p>No. 18, rue du Faubourg St. Honoré.</p> <p>Pa'is.</p> <p>France.</p>		

Articles to initials &c., not to be registered.  
Exception.

5. No article addressed to initials or to a fictitious name can be registered. This prohibition, however, does not extend to articles addressed, in addition, to the care of a person or firm.

Strong cover recommended.

6. Every article presented for registration should be enclosed in a strong envelope, securely fastened. A Postmaster may decline to accept for registration a letter insecurely fastened or otherwise in unsafe condition.

Value of contents not to be indicated on covers.

7. It is prohibited to send to a country of the Postal Union any registered article marked on the outside with the declared value of the contents, and Postmasters must therefore refuse to receive articles which are so marked. This does not apply, however, to articles sent by parcel post to countries with which a parcel post is maintained.

Exception.

### CORRESPONDENCE WITH UNITED KINGDOM.

Postal Union rates and regulations apply.

1. The above regulations apply in general to correspondence with the United Kingdom, which is a Postal Union country. As regards *Letters, Post Cards, Newspapers* and *Commercial Papers*, and also the matter of registration, there are no variations to note. It is important to bear in mind that the unit of weight for letters to the United Kingdom is *half* an ounce.

Samples, size and weight.

2. The limit of weight for *Patterns* and *Samples* addressed to the United Kingdom is 5 lbs., and the limits of dimensions: 2 feet in length, 1 foot in width and 1 foot in depth.

Printed matter size and weight.

3. The limit of weight for a package of printed matter addressed to the United Kingdom is 5 pounds; the limit of size is the same as to other Postal Union countries.

British copyrights.

4. Foreign reprints of English copyright works sent to Great Britain in mails from other countries may be forfeited under the laws of that country at the instance of the holders of such copyright.

5. The regulations governing the Parcel Post with the United Kingdom are given in a subsequent section. See page xxxviii.

O. H. M. S. Letter free.

6. Prepayment is not required on letters, on Her Majesty's Service, posted in Canada and passing to the United Kingdom, addressed to the Imperial

Departments of State,—Civil, Military and Naval,—and such letters are to be forwarded unrated to the Exchange Post Offices making up mails for England.

7. Correspondence for London, England should not be marked "To be called for" unless addressed to the General Post Office or to the Charing Cross Post Office. Correspondence for London.

8. The Post Office of the United Kingdom has made arrangements under which, by the payment of an additional fee, letters and parcels, the delivery of which is urgent, may be delivered by special messenger immediately after arrival at the office of destination. This extra fee cannot in the case of letters be prepaid; it will be collected from the addressee at the rate of 3d., or 6 cents for each mile the letter has to be conveyed from the office of address. In the case of parcels the fee, which is 5d. or 10 cents, can be prepaid in the country of origin; but in cases where the addressee resides at a distance from the office of delivery, a special charge may be made on delivery not exceeding the fee for inland transportation *less* the 5d. prepaid. "Express" letters and parcels.

Express letters and parcels should be plainly marked with the word "Express."

### CORRESPONDENCE WITH NEWFOUNDLAND.

1. The rate of postage on a letter addressed to Newfoundland is the same as upon a letter addressed to any place in Canada—3 cents per ounce. Post Cards must however be prepaid two cents. Rate on letters and post cards.

2. Undelivered request letters from Newfoundland whether ordinary or registered may be returned direct to the senders. Request Letters.

3. Newspapers and periodicals enjoying the privilege of free transmission to subscribers in Canada may also be sent free to subscribers in Newfoundland. Sample copies may also be sent to Newfoundland at the 1 cent per lb. rate. Newspapers free.

4. Transient newspapers, sample packets, commercial papers, &c., addressed to Newfoundland are subject to Postal Union rates and regulations. Rate on transient newspapers.

5. There is a parcel post between Canada and Newfoundland governed by the same regulations as that between Canada and the United Kingdom, except that the rate of postage is 15 cents per lb. All parcels for Newfoundland should be sent registered to the Halifax Post Office for inclusion in the Parcel Mail made up by that office for St. John's. Parcels.

### CORRESPONDENCE WITH THE UNITED STATES.

1. The rate of postage on a letter addressed to the United States is the same as upon a letter addressed to any place in Canada—3 cents per ounce. No letter will be forwarded that is not prepaid at least one full rate. The deficiency in prepayment in the case of over weight letters prepaid one rate only will be collected on delivery in the United States; and in like manner any deficiency in prepayment of a letter coming from the United States will be collected on delivery in Canada, according to United States rate, which is 2 cents per ounce. Rate on letters.

2. The only articles which can be sent to the United States, closed against inspection are *letters*. The prepayment therefore at letter rate of a closed packet does not entitle it to go forward by post to that country, unless in the usual and ordinary form of a letter. Articles other than letters to be open to inspection.

## Post cards.

3. Canada one cent Post Cards and Reply Post Cards are equally available for correspondence within the limits of Canada and for correspondence with the United States, and Private Post Cards may be sent to the United States under the same regulations as are applicable to similar cards addressed to places in Canada. See page vi

## Newspapers.

4. Newspapers and periodicals enjoying the privilege of free transmission to subscribers and newsdealers in Canada may also be sent free from the office of publication to subscribers and newsdealers in the United States. Sample copies may be sent to the United States at the 1 cent per lb rate. Transient newspapers and periodicals addressed to the United States are subject to the same rate of postage as when addressed to places in Canada, but cannot be forwarded if insufficiently prepaid.

## Undelivered news papers.

5. When papers or periodicals posted from offices of publication in the United States remain uncalled for in Canada for four weeks, or are refused, the publishers should be notified of the fact in the same manner as in the case of Canadian publications (See page x par. 11).

## Lottery advertisements.

6. *A stringent law has been passed in the United States excluding from the mails of that country all newspapers containing lottery advertisements or announcements of drawings in lotteries, and this exclusion applies equally to papers sent to the United States from other countries as to papers published in the United States.*

## Regulations of United States Post Office respecting letters from collecting agencies.

7. An Act of Congress having been passed prohibiting the transmission by mail in the United States of letters bearing on the covers words "obviously intended to reflect injuriously upon the character or conduct" of the addressees, and the right of any country of the Postal Union to exclude any particular class of correspondence from its mails by special legislation being recognized by the Postal Union Convention, Postmasters exchanging mails with the United States are hereby instructed not to forward to that country, but to send to the Dead Letter Office, letters the covers of which bear such words as "Bad Debt Collecting Agency" or "Collecting and Detective Agency," &c., &c., as letters with these inscriptions have been specifically objected to by the United States Post Office as conflicting with the provisions of the Act of Congress referred to.

## Regulations of Canadian Post Office in regard to the same.

8. Postmasters will have observed that a regulation which forms part of section 4, under the head of "Prohibited Articles." (page xxii) prohibits the posting in Canada of any letter or other article of mail matter upon the outside cover of which are "any words tending to injuriously affect the commercial or social standing of the person addressed"; and under this regulation all letters contained in covers on which the words "Bad Debt" appear, or on which the "dunning" character of the business of the sender is prominently indicated, should be sent to the Dead Letter Office. In any case of doubt as to whether the words on a cover constitute a violation of the regulation, the Postmaster should forward the letter to destination, but should report the exact facts to the Department and ask for instructions.

## Books, photographs deeds, &amp;c.

9. The following classes of matter when addressed to the United States are subject to a postage rate of 1c. per 2 oz.: Books, pamphlets, occasional publications, printed circulars, catalogues, prices current, hand bills, book and newspaper manuscript, printer's proofs, whether corrected or not, prints, advertising sheets, blank forms, printed stationery, drawings, engravings, lithographs, photographs, sheet music, whether printed or written, and including music books whether stitched or bound, documents wholly or partly printed or written, such as deeds, insurance policies, and generally the class of documents known as legal and commercial papers. (See next section).

10. A packet of legal and commercial papers, however, must, as in the case of similar matter addressed to Postal Union countries generally, bear a minimum prepayment (however small the weight) of 5 cents. Legal and commercial papers.

11. All such matter when addressed to the United States must be left open to examination in the manner described in the regulations concerning Inland Post. To be open to inspection.

12. The rate of postage on patterns and samples is the ordinary Postal Union rate of one cent per two ounces, with a minimum prepayment of two cents. Limit of weight, 8 ozs. Samples.

13. General merchandise, &c.—The rate applicable to this class of matter when addressed from one post office to another in Canada, one cent per ounce, applies also to packets posted, under the same general conditions and regulations, for destinations in the United States. Such matter is subject to Customs examination on arrival in the United States, and to the collection of any duty to which it may be found to be liable. Closed parcels of any description cannot be sent to the United States. Rate on general merchandise.

14. No charge for postage is made in the United States on any class of mail matter forwarded to that country from Canada duly prepaid; nor is any postage collected in Canada on fully prepaid matter received from the United States. In connection herewith it is well to bear in mind that the postage rate on letters in the United States is 2c. per oz., so that a letter coming from the United States may be fully prepaid, which, had it been posted in Canada, at Canadian rates, would have been short paid. Proper prepayment in country secures delivery in the other without charge.

15. All classes of mail matter addressed to the United States may be registered. The fee is a uniform one of five cents. No registered letter is to be knowingly accepted by any Postmaster, unless fully prepaid, both as regards postage and registration fee, but should such a letter be inadvertently accepted at any office, and forwarded therefrom without sufficient prepayment, it may, if prepaid one rate and the registration charge, be sent on to destination subject to collection of the deficient postage on delivery. Registration

Registered letters posted in the United States are sometimes accompanied by forms of receipt to be signed by addressee and returned to office of origin. Postmasters will be careful to see that these forms are duly signed and will then put them under cover to the Inspector of the Division who will return them to the office of origin. Acknowledgement.

16. Full prepayment on all classes of matter except letters is compulsory. Letters will be forwarded if prepaid one full rate of 3 cents. Prepayment.

17. All classes of matter coming into Canada from the United States (or from any Foreign Country) are subject to the collection of Customs duty, should their contents be of a dutiable character. The liability to duty will be found to attach particularly to book packets and fifth class matter sent from the United States. Dutiable matter

18. When any of the postal matter received from the United States is found at the Canada Exchange Office to be dutiable, it will be transferred to the Customs officers, and the article will be detained by the Customs until the duty be paid. Transfer to Customs.

19. The dutiable packages, when transferred from the Collector of Customs at an Exchange Office to some other Customs station nearer the place of destination for the collection of duty, are to pass by mail for that purpose with the Customs manifest, or other document relating thereto, free of postage, and such manifest or other document may be returned to the place of despatch free of postage. Re-posting with Manifest.

20. When after the expiration of thirty days a dutiable package remains unclaimed, or with duty unpaid, it will be returned by the Customs to the Post Office to be sent as unclaimed to the Dead Letter Office, Ottawa. Unclaimed.

Official correspon-  
dence.

21. Correspondence which has been franked as official by competent authority in the United States will be delivered in Canada free of postage, the same privilege being extended to duly franked correspondence posted in Canada addressed to the United States.

Request Matter.

22. Fully prepaid request letters and other matter of United States origin, including registered letters, and also fully prepaid matter bearing on the cover the sender's full address without request for return, may, if found to be undeliverable, be returned to the United States direct, instead of being sent to the Dead Letter Office, the former at the expiration of the time named in the request, and the latter at the expiration of thirty days after receipt. The reason for non-delivery should always appear on matter so returned.

Copyright Music.

23. Music dealers and others wishing to send printed music by post to the United States are requested to take notice that a large quantity of music is copyrighted in that country, and that, as the laws of the United States forbid the importation by post or otherwise of foreign reprints of works copyrighted therein, any packages containing such reprints are liable to confiscation in the United States. Such packages would not be forwarded by this Department if the contraband character of their contents (as regards the laws of the United States) were known, as the existing Postal Convention between the United States and Canada requires the exclusion from the mails of all publications violating the copyright laws of either country; but as the effective exclusion of such matter by the officers of this Department is very difficult of accomplishment, persons interested will please to understand that, in accepting a parcel of music addressed to the United States, this Department does not assume to decide the question of its right to delivery in that country.

### CORRESPONDENCE WITH NON-UNION COUNTRIES.

Rates, &c.

1. The countries referred to as Non-Union Countries are those that have not entered the Postal Union. The postage rate on letters addressed to these countries is 5 cents per  $\frac{1}{2}$  oz.

Full prepayment  
compulsory in cer-  
tain cases.

2. To certain Non-Union countries or colonies full prepayment of postage is compulsory, and this is indicated in the Postage Table by the letter "c." Correspondence for these places posted unpaid or insufficiently paid will be sent to the Dead Letter Office.

Additional charge  
on delivery in cer-  
tain cases.

3. In certain cases additional postage is charged on delivery in the country of destination, and this is indicated in the Table by the letter "a."

Newspaper rates.

4. The rate on newspapers and other printed matter is 1 cent per 2 oz.

Weight.

5. The limit of weight for printed matter addressed to Non-Union Countries is 4 lbs.

Dimensions.

6. The limit of size for packages of printed matter to the above destinations is 18 inches in length by 12 in breadth or depth.

7. The limit of weight for sample packets addressed to Non-Union countries is 12 oz.

### PARCEL POST WITH THE UNITED KINGDOM AND OTHER COUNTRIES.

Countries to which  
parcels may be  
sent.

1. Closed parcels are exchanged by direct mail between Canada and the following countries: the United Kingdom, Newfoundland, Bermuda, Jamaica, Barbados, Grenada, St. Lucia, St. Vincent, British Guiana, Hawaii (Sandwich Islands), Japan Hong Kong (including Shanghai) and New South Wales,

and, through New South Wales, with the other Australian colonies, except West Australia, and with New Zealand. Parcels may also be sent to and received from any country with which the British Post Office maintains a parcel post. A table showing the rates and limits of weight will be found on page lxii.

2. Parcels for, or sent *via*, the United Kingdom, will pass exclusively in the weekly mails conveyed by the Canadian Steamers to and from the St. Lawrence in summer and Halifax in winter, and will be included in a parcel mail for Liverpool, England. In no case can parcels be sent to or *via* the United States nor can a parcel originally addressed to Canada be redirected to the United States. The parcels for Japan and Hawaiian Islands, Hong Kong and New South Wales should in all cases be sent to Vancouver, and those for Newfoundland, as well as for Bermuda, Jamaica, Barbados and other places in the West Indies to Halifax, N.S.

3. All closed parcels sent to and received from other countries should be treated as registered matter whilst in course of post in Canada; that is to say that they should be duly entered in the records of the offices through which they pass and on the bills of the mails with which they are sent. They are not, however, subject to registration fee.

4. The Parcel Post is governed by the following regulations:—

(a). Every parcel, when first posted must be fully prepaid.

(b). The dimensions of a parcel must not exceed two feet in length by one foot in width or depth.

(c). All parcels must be securely and substantially packed and closed.

(d). A parcel must not contain any explosive, combustible, or dangerous articles.

(e). Oils, liquids, &c., can only be forwarded if put up with the same security required in connection with their transmission in domestic mails. (See section 9 under "Fifth Class Matter.") Fragile articles should of course be packed with special care. Articles liable to spoil in transit should either not be forwarded at all or else should be put up in such a way as not to become offensive in course of post.

(f). Each parcel must be plainly directed and such direction must include the name and full address of the person for whom the parcel is intended.

(g). For each parcel posted the sender must fill up a Customs declaration. On this form the sender will supply an accurate statement of the contents and value of the parcel, also the address thereof, with signature and place of abode of the sender. The Customs declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

(5). Should any parcel posted abroad be found on receipt in Canada to be short paid, the deficiency in postage will be charged on it by the receiving office and collected on delivery at the office of destination.

6. Postmasters accepting a parcel addressed to a foreign country should be careful to see that the contents as described in the Customs Declaration are not amongst the articles mentioned in the Table of Parcel Post Rates as prohibited by the country of destination.

7. Postmasters should see that full and accurate description of the nature and value of the contents of parcels is given in the Customs declaration. Such description as "fancy goods," "sundries," "box," "present" etc., are not sufficient.

8. A parcel coming from any of the above mentioned countries to Canada and subsequently re-addressed to the country of origin will be liable to the full unpaid rate for the return.

### Letters, &c., by Private Ship.

1. Letters intended to be sent by Private Ship must be addressed "By Private Ship;" and if by a particular vessel, the name of the ship must be added. Superscription required.

2. The Postage and conditions of transmission of letters, &c. by a Private Ship are the same as by Mail Packet. Postage.

### Articles not allowed to be Sent by Post to Foreign Countries.

1. The same prohibitions which are enforced in regard to domestic (inland) correspondence apply to correspondence to other countries. Inland regulations in force. (See page xxii).

2. Oils, liquids, fatty substances, glass, &c., may be sent to the United Kingdom by parcel post, but not in any other way. Oils, &c.

3. It is further to be noted that letters containing coin, jewellery, or anything liable to Customs duties in the country of destination, are not allowed to be forwarded. In certain countries (as Costa Rica, Italy and the Australian colony of Victoria), letters or packets of this character received in the mails are liable to confiscation. Coin and Jewellery
